KIT AZOTO + IDROGENO

Kit Azoto Idrogeno

KIT AZOTO + IDROGENO

Kit rilevazione micro perdite Azoto Idrogeno Micro leaks Nitrogen Hydrogen kit

Il kit è molto utile per la ricerca di micro perdite nei circuiti di refrigerazione - condizionamento - A/C auto, grazie alla finissima molecola di idrogeno e all'utilizzo del suo cercafughe che ne rende facile l'individuazione. Kit studiato per una rapida rilevazione delle perdite dei sistemi A/C veicolari. L'idrogeno, molecola ancora più fine dell'azoto, vi aiuterà a risparmiare tempo e vi aiuterà a rilevare perdite sotto agli standard attuali. Il cercafughe in dotazione vi permetterà di localizzare il punto esatto della perdita.

The kit is very useful of detecting micro leakage in refrigeration circuits - air-conditioning systems - Automotive A/C, thanks to the very fine hydrogen molecule and the use of its leak detector which makes it easy-to-find. This kit has been developed to quickly locate the leak in the automotive A/C systems. Hydrogen, even smaller than Nitrogen molecule, will help you to save time and detect leaks that are smaller of the current standards. The electronic leak detector, included in the kit, will allow to accurately pinpoint leak site in a system.

091.900

**R134a
R1234yf**

MKIDRO/A

Il kit viene utilizzato per:

- Prova delle perdite in sistemi HVAC & A/C
- Controllo perdite evaporatori e condensatori
- Lavaggio sistemi HVAC & A/C
- Flussaggio nella fase di saldatura
- Verifica taratura manometri
- Verifica taratura pressostati

Ideal for:

- Testing HVAC & A/C systems for leaks
- Testing evaporators and condensers for leaks
- HVAC & A/C systems flushing
- Fluxing during soldering
- Testing the switch calibration
- Testing the gauges calibration

Nel kit sono inclusi:

- Cartuccia AZOGEN monouso (code 484200)
- Regolatore di pressione azoto con bilanciatore di pressione in uscita e adattatore in ottone M 10x1 F Cert. 825ARS-40 (code MREG50B)
Pressione in entrata: 220 Bar
Pressione in uscita: 50 Bar
Connessione: 1/4" SAE M
Valvola di sicurezza esterna
- Manometro a settori (code MR145)
- Cercafughe elettronico per gas infiammabili (code MCX-320)
- Tubo 1200 mm 1/4" SAE F x 1/4" SAE F (code MTG 1/4-120045)
- Attacco rapido con volantino connessione 1/4" SAE M (code QC-HMC)
- Attacco rapido con volantino connessione F + riduzione 1/4" SAE M per R1234yf (code QC-HMCYF)

The kit includes:

- Disposable AZOGEN cylinder (code 484200)
- Nitrogen pressure regulator with pressure balancer and M 10x1 F brass cylinder adapter Cert. 825ARS-40 (code MREG50B)
Inlet pressure: 220 Bar
Outlet pressure: 50 Bar
Connection: 1/4" SAE M
External security valve
- Gauge with defined sectors (code MR145)
- Combustible gas electronic leak detector (code MCX-320)
- 1200 mm 1/4" SAE F x 1/4" SAE F hose (code MTG 1/4-120045)
- Quick coupler fitted with 1/4" SAE M connection (code QC-HMC)
- Quick coupler fitted with F connection + reducing 1/4" SAE M adapter (code QC-HMCYF)
